Alice, as discussed this review timeframe is OK with us.

Regards, Scott

This appendix is more difficult to review than the DERs (not because it's badly written, but because it has MUCH more technical information in it) - given that it does not seem to be driving anything in the schedule, I'd like to give our reviewers until the end of April to review. This will, of course, push back the date that it gets finalized to May or June, but I don't think that will delay anything else.

Is that OK (or have I mis-read the schedule) ?

Attached is Appendix C of the FFS, which describes the Empirical Mass Balance. Please send me comments by COB 4/6. I will be scheduling a conference call to discuss comments on 4/10, 11 or 12 - please let me know your preference.
